SKILLS

Languages:	Java, Python, HTML, Tailwind CSS, JavaScript.
Frameworks:	NumPy, Pandas, Matplotlib, SK Learn, Seaborn.
Tools/Platforms:	Excel, VS Code, MySQL, Power BI, Jupyter.
Soft Skills:	Logical Thinking ,Team Work, Time Management, Adaptability.

PROJECTS

Tesla Global Deliveries Analysis – Power BI Dashboard Project| [GitHub](#) Nov' 25

- Designed and developed a multi-page Power BI dashboard analysing Tesla's global deliveries, production, pricing, battery capacity, and CO2 savings from 2015–2025, using real-world inspired EV datasets.
- Implemented advanced DAX measures, data modeling, KPI cards, slicers, and custom visuals (donut charts, regional map, scatter plot) to extract insights on model-wise performance, regional growth, and sustainability impact.
- Created interactive Power BI dashboards with drill-down, filters, and KPIs to enable clear data insights and faster decision-making.
- Tech Stack Used:** Power BI, DAX, Power Query, Data Modeling, Data Analytics, Analytical Storytelling, Business Intelligence.

Sales Analysis dashboard – An excel dashboard| [GitHub](#) Mar' 25

- Built an interactive Excel dashboard using real-world EV population data, showcasing trends, geographical distribution, brand popularity, and battery performance through advanced visualizations and dynamic analytics.
- Performed end-to-end data cleaning, modelling, and storytelling, enabling accurate insights and creating a Sustainability Scorecard to evaluate regional contributions to clean mobility.
- Automated data analysis using PivotTables, slicers, and Power Query to improve reporting efficiency and enable dynamic, real-time insights.
- Tech Stack Used:** PivotTables, Pivot Charts, Slicers, Power Query, Data Cleaning & Visualization.

TRAINING

Skill Development | [LPU](#) Jun' 25 – Jul' 25

Advanced Data Structure

- Completed an advanced Data Structures and Algorithms training program using Python. Built a project titled Smart Parcel Locker that applies core data structure techniques to manage parcel storage, retrieval, and tracking efficiently.
- Applied advanced data structures and algorithms to develop a Smart Parcel Locker system, improving efficiency in parcel storage, tracking, and retrieval operations.
- Tech stacks used:** Linked Lists, Stacks, Queues, Arrays, Hash Tables, Trees, Heaps, Graphs, Sorting and Searching Algorithms.

CERTIFICATES

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | [Oracle](#) Mar' 26

Oracle Data Platform 2025 Certified Foundations Associate | [Oracle](#) Mar' 26

Social Networks | [NPTEL](#) Nov' 25

Responsive Web Design | [FreeCodeCamp](#) Dec' 23

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology Aug' 23 – Present
Computer Science and Engineering; **CGPA: 5.79**

Sri Vasavi Junior College Dharmavaram, AP
Intermediate June 21 – Apr' 23
MPC; **Percentage: 85.5**

Jeevananda EM High School Dharmavaram, AP
Matriculation; **Percentage: 95.83** Jun'20–May'21
